You can watch the DVD, "Jump Start Your Business", which comes in your Fortune Welcome kit to help you learn the basics of starting your Fortune business.

The most important habit you should have is to make sure you maintain control of your business and Train each new FHTM Representative to sign up for their 3 Customer Points when YOU are signing them up in your business. If they are not ready to do this at the time of Sign Up, then they should not sign up, but wait until they are ready to do it all at once. Without these 3 Customer Points, you will not receive your \$100 commission for personally Sponsored Reps and neither will they. Make sure they understand that. Help them sign up and as you do this, you are teaching them the correct business habits. This is where most people fall down and then need you to help them get it straightened out. This is the only process in Fortune that has a time frame. A person is really better to not sign up at all than to not get their 3 points right away at sign up. It would be like buying a McDonald's Franchise and then not ordering the food to serve. You have a business but you will not start to create the income flow until you have products being used. Also, it is very important to **PRINT OUT EACH PAGE OF THE APPLICATION PROCESS**. This will assure that they have a copy of the important Rep ID # and their Back Office Password.

This business has changed so many lives. You truly are a part of the greatest opportunity that currently exists in the United States of America today. Remember, you are not an employee and no one is going to tell you what to do. You must be Self Disciplined and Goal Oriented. Your life will soon be changing too if you choose to work, read a few books, attend a few meetings and get good at being a Good Inviter.

We can't wait to help you build your Financial Freedom and Success with Fortune Hi-Tech Marketing.
